GRAVITY COMBI ROTARY DRUM FILTER

Pureflow Bio Gravity Combi Filter is an advanced all-in-one filtration system specially designed for Koi Ponds, Aquaculture, Fish Farming, and Recirculating Aquaculture Systems (RAS). It combines mechanical filtration and biological filtration into a single compact unit, providing crystal-clear water with minimal maintenance.

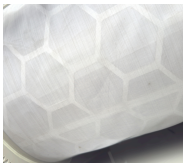

GRAVITY COMBI ROTARY DRUM FILTER

Key Features

- Automatic Rotary Drum Filter
- Gravity-fed operation
- Combined mechanical and biological filtration
- Self-cleaning drum system
- Energy-efficient design
- Compact all-in-one construction
- Low maintenance
- Continuous filtration
- Crystal-clear water
- Suitable for freshwater, Saltwater and koi ponds

Product Features

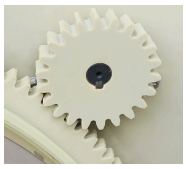

SS 316 Grade 75 Micron Mesh

High Pressure Washer Nozzle

Level Sensor Detect Auto Washing

Wear Resistance PP Gear

MODEL	GCRDF-10	GCRDF-15	GCRDF-25	GCRDF-35	GCRDF-50	GCRDF-100
Dimension Length(mm)	1200	1200	1450	1600	2050	2690
Dimension Width(mm)	650	900	950	100	1050	1450
Dimension Height(mm)	550	750	750	900	1000	1000
Water Volume(m^3)	10	15	25	35	50	100
Max. Flow(m^3/h)	10	15	25	35	50	100
Water INLET (mm)	75*3	90*3	110*4	110*5	110*6	160*5
Water Outlet(mm)	50*2	75*2	90*3	110*3	110*3	110*3
UV Power (W)	30*2	40*2	60*2	60*3	60*4	80*3

The models as above are only for reference, could also customized by customer request.
