COMBI ROTARY DRUM FILTER

The PUREFLOW Combi Drum Filters offer a range of advantages that make them the ideal choice for your filtration needs. With their innovative design and advanced features, these filters provide exceptional performance and efficiency.

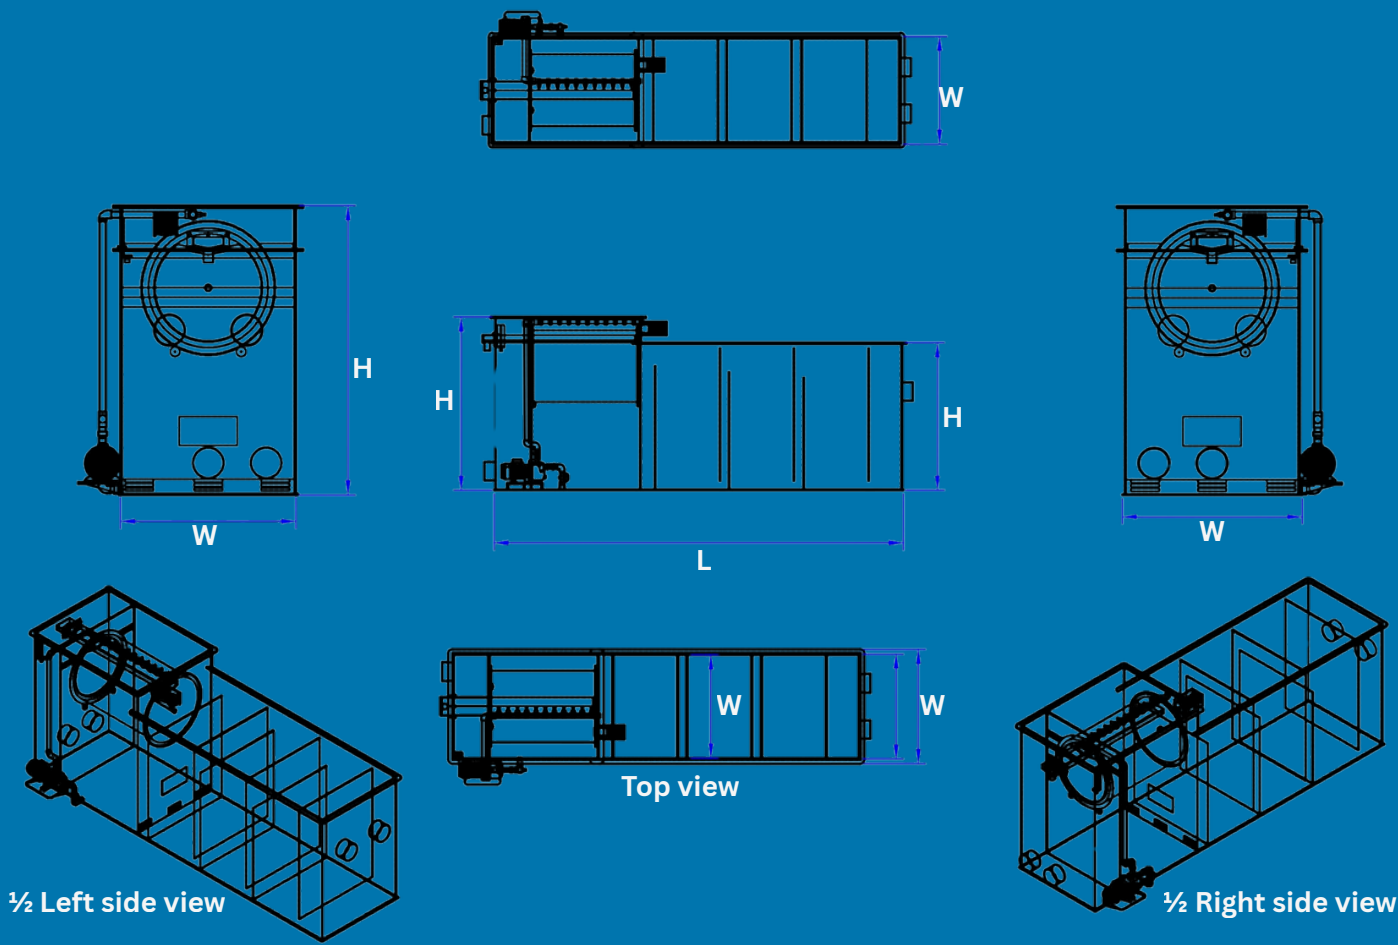

COMBI ROTARY DRUM FILTERS

User Benefits

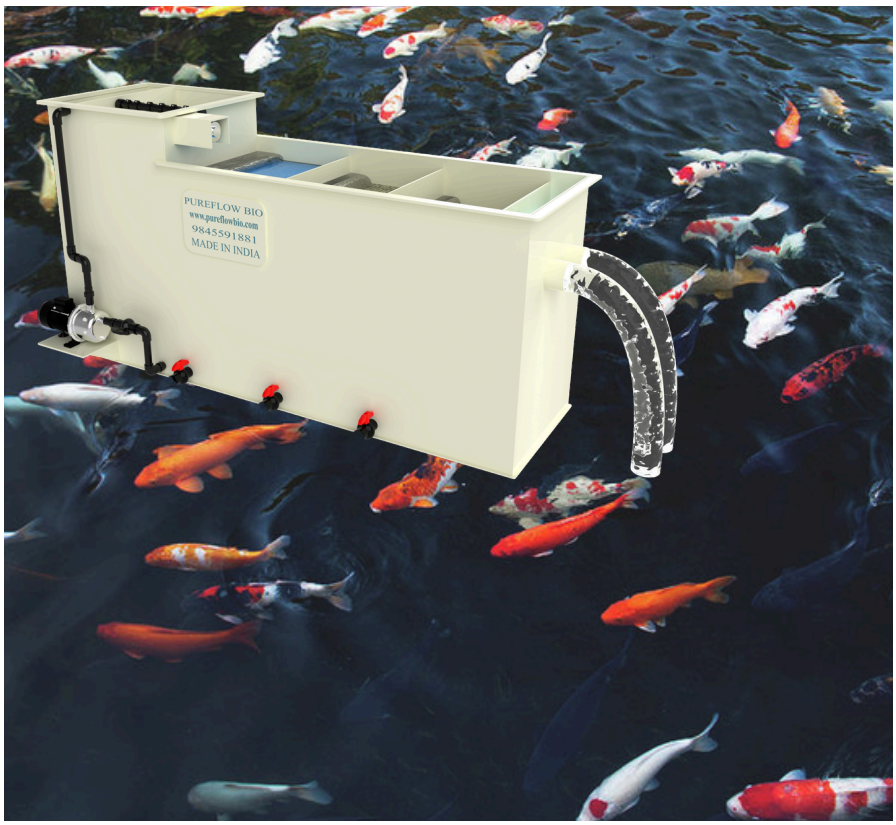

- Durability, long lasting
- Minimal maintenance
- Minimum energy consumption
- Expandable and customizable
- Available with SCADA integration
- For both fresh and saltwater applications
- Compatible with ozone injection

COMBI ROTARY DRUM FILTER

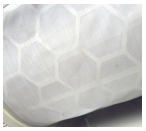

All in One Combi Drum Filter, Maintaining crystal-clear, healthy water in Koi ponds, ornamental ponds, and Recirculating Aquaculture Systems (RAS) is a constant challenge. Uneaten feed, suspended solids, fish waste, and harmful pathogens quickly deteriorate water quality, stressing fish and disrupting bio-balance.

COMBI ROTARY DRUM FILTER

Product Features

SS 316 Grade 75
Micron Mesh

High Pressure
Washer Nozzle

Level Sensor
Detect Auto Washing

Wear Resistance
PP Gear

MODEL	CRDF 3	CRDF 5	CRDF 10	CRDF 15	CRDF 25	CRDF 35	CRDF 50	CDRF 100
Dimension Length(mm)	990	1030	1430	1650	2250	2300	3000	4000
Dimension Width(mm)	340	475	475	550	640	680	850	1000
Dimension Height(mm)	500	745	745	745	1000	1110	1200	1500
Water Volume(m^3)	3	5	10	15	25	35	50	100
MAX. Flow(m^3/h)	3	5	10	15	25	35	50	100
Water Inlet (mm)	32*1	50*1	50*2	50*2	63*2	75*2	90*2	90*2
Water Outlet (mm)	50*1	63*2	63*2	63*3	75*2	90*3	110*2	110*3
UV Power (W)	20*2	30*2	30*2	40*2	50*2	60*2	60*3	100*3
